VEGETABLES AND HERBS

Vegetables

Choose a sunny and somewhat protected area. Consider planting your edible garden as close to your house as possible so the convenience of “picking fresh” is at your fingertips. At **Woodbury's Garden Center**, we can help plan your vegetable garden and make suggestions on cultivars and heirlooms varieties. From sowing to harvest, everything can be found at our Garden Center.

Visit **Woodbury's Garden Center** recipe center for ideas and tips on what to do with your abundance of vegetables!

Herbs

Many herbs are attractive all year and produce beautiful flowers. Others are grown for medicinal purposes or for soap making. These are plants that truly make you feel good. Whatever the size of your garden, it is easy to find a crevice to plant herbs in. They usually love sunny, well drained sites but have a reputation for being as enduring as they are tough!

Let us show you how to plant a strawberry pot, how to harvest and store herbs and prolong the season by herb gardening indoors.
